Health informatics — Individual case safety reports (ICSRs) in pharmacovigilance —

Part 1:
Framework for adverse event reporting

Informatique de santé — Rapports de sécurité de cas individuel (ICSRs) en pharmacovigilance —

Partie 1: Cadre pour rapporter un événement défavorable

This CD-ROM contains the publication ISO/HL7 27953-1:2011 in HTML format.

Installation

If this publication has been packaged as a zipped file, do NOT open the file from the CD-ROM, but copy it to the desired location in your local environment. Once the file has been copied to your local environment, open the file to unzip its contents. For compound documents (e.g. HTML documents comprising several files or folders, documents that have been subdivided owing to the total file size, etc.), in order for the links between documents to function properly, the file and folder names must be maintained and all the files stored in the same folder.

Where the zip file contains a Readme file, it is essential to consult this file to understand the way in which the document has been structured.
